

Unemployment, Core PCE, GDP

— Unemployment — GDP — Core PCE

GDP
 a) Tomorrow the Q3 Advanced Estimate will be released.
 b) Atlanta Fed's GDPNow forecasts 3.1% growth.
 c) Median consensus forecast is 2.0% growth.

In 2023, GDP is expected to turn negative, after the surge in exports fades - in part due to the strong dollar and in part due to slower demand from weakening global economies.
